LEAVING NO-ONE BEHIND IS EVERYBODY'S BUSINESS

NHP 2021-2030 1A

NHP 2021-2030 1B

- NHP 2021-2030 Volume 1A-Policies & Strategies: 5 KRAS
- NHP 2021-2030 Volume 1B- 10 Key Interventions:
- Build VHAs
- Revitalize Health Promotion-HIC
- Build stronger Partnership with all stakeholders
- Establish a NReference Lab
- Strengthen the Medical supplies pull system
- Explore revenue Generating options
- Strengthen Health Regulatory systems
- Develop e-Health
- Advance the NRRT Hospital
- NHP 2021-2030 Volume 2A- Situation analysis 2011-2020: current status of health in PNG at the National, Provincial and District Level in detail for PHAs.
- Volume 2B: Provincial and District Profiles (2011-2020) - snapshot of priority indicators in PHAs

KRA 3: INCREASE ACCESS TO QUALITY AND AFFORDABLE HEALTH SERVICES

Objective 3.1: Improve the quality of care at all levels of service delivery.

Strategies:

- 3.1.1 Strengthen integration of clinical services, public health interventions & primary health care at all levels of care (Essential Health Intervention Package).
- 3.1.2 Improve quality and efficacy of medical drugs and consumables.
- 3.1.3 Improve clinical interventions with the aim of identifying proven efficiency and effectiveness.
- 3.1.4 Strengthen pre-service and in-service training at all health facilities.

Objective 3.2:Increase access to health care services for all with greater focus on the disadvantaged communities.

Strategies:

- 3.2.1 Increase provision of special needs services and homecare support at all levels of care.
- 3.2.2 Introduce user friendly, comprehensive and innovative health incentive schemes that increases utilisation of facilities.

CHAPTER FOUR: POLICY DIRECTIONS FOR THE NEXT TEN YEARS

NATIONAL HEALTH PLAN 2021-2030 | 24

33/62

VOLUME 1: POLICIES AND STRATEGIES

- 3.2.3 PHAs implement user friendly incentive schemes for women and communities that increase number of women accessing antenatal care, supervised delivery and postnatal care and family planning.
- 3.2.4 Strengthen process of referring patients from primary healthcare levels to the next appropriate level for continuum of care.
- 3.2.5 Strengthen the capacity of PHAs and hospitals to increase integrated outreach services.

Objective 3.3: Improve the range and availability to affordable healthcare services.

Strategies:

- 3.3.1 All partners support the revised Free Primary Health Care and Subsidized Specialized Health Services Policy implementation.
- 3.3.2 Increase utilisation of user-friendly services through better client care management.
- 3.3.3 Explore options to reduce out of pocket payments.
- 3.3.4 Build provincial hospital capacity to deliver specialized services and health hubs of excellence.
- 3.3.5 Strengthen capacity of the national referral and teaching hospital.

The NHSS 2021-2030

- The National Health Services Standards (2nd edition) –Volume 1-3
- rean important tool for providing direction and guidance to national, province and district planning
- > delivery of safe quality health services
- ➤ for informing clients, communities and stakeholders of the health services which they can expect to be available at each of the various levels of service delivery.
- ➤ Aligned with the NHP 2021-2030
- right sets out a structure for PHAs to guide the delivery of safe, quality healthcare in Papua New Guinea, building upon the last 10 years implementation of the Standards.

Laws regulating service delivery in the Health system

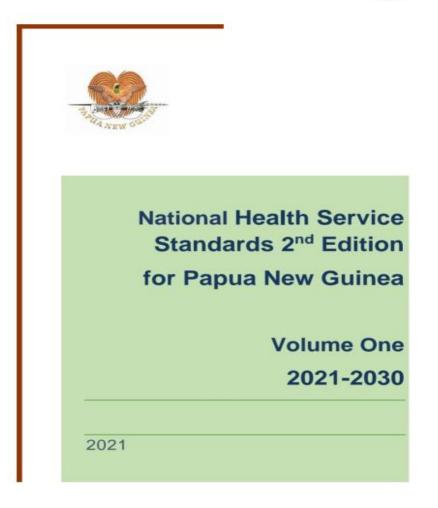

- Organic law-Provincial and Local Level Govts
- National Health Administration Act –NHAA
- Public Hospital Act
- PHA Act
- Section 5 (1) –NHAA- National Health Board – NHSS to implement the NHP

National Health Service Standards-formed last NHP- Revised

NHSS Volume 2- 2021-2030: National Quality Standards (NQS) & Accreditation Program for Health Services

Provides

- > requirements,
- > specifications,
- > guidelines,
- > or characteristics that can be used; to ensure that materials, products, processes, and services are fit for their purpose.
- > to protect the public from harm and improve the quality of health service provision.

Accreditation

- ➤ a formal process to ensure there is delivery of safe, high quality health care based on National Quality Standards
- > there are processes devised and developed by health care professionals for provision of health care services.

➤ It is public recognition of achievement by a health care organization, of meeting all of the requirements of the National Health Service Standards" (NHSS)

NHSS- Volume Three: Design Standards for Health Facilities

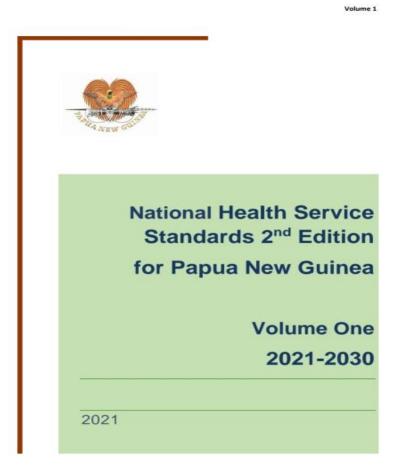

Standards 2nd Edition for Papua New Guinea Volume Three Design Standards for Health Facilities in Papua New Guinea

2021-2030

National Health Service

- To inform all stakeholders involved in the:
- **>** planning
- ➤ Design
- ➤ Development
- **≻**Commissioning
- **≻**Operation
- **≻**Maintenance
- ➤ Disposal of Health facilities, infrastructure and medical Technology for the HF

National Health Service Standards

- Right health care provided
- Right location
- Right time
- Right HC provider
- Right patient/Client

 Using evidenced based clinical/public health best practices and standards.

age 32

32/139

Is there a separate COPD?	Yes/No
Does the Children's Outpatient Department open 24 hours a day?	Yes/No
Is there evidence of triage system? Patients treated in order of clinical needs?	Yes/No
Is the weight, temp, oxygen saturations, resp rate and HR taken at triage?	Yes/No
Is there a resuscitation room equipped with a bed, monitors, suction machine, oxygen, resuscitation trolley, nebulizer machine to manage the very sick child in COPD?	Yes/No
Are there observation beds/space in CED for day care observations?	Yes/No
Is there a bed in Cons clinic?	Yes/No

Inpatient /Clients (Ward/SCN)

s there evidence of medical on-call roster? Is it followed? (Ask nurses)	Yes/No
s there evidence of Nursing shift Roster? (Ask doctors)	Yes/No
s there a designated space in the ward / SCN, equipped with oxygen, monitors,	Yes/No
suction machine to manage very sick children? Is PICT and HIV treatment offered at the Hospital?	Yes/No
is SAM management which includes F75/F100/RUTF provided at the hospital?	Yes/No
s your hospital able to do gene expert for TB?	Yes/No
Are all TB sensitive paediatric drugs and MDR TB drugs available at your facility?	Yes/No
Does your Paediatric wards have a separate ward for Adolescents?	Yes/No
Does your hospital have a one stop shop for Adolescents?	Yes/No
Does the ward have a fully equipped resuscitation trolley?	Yes/No
How often do you do ward rounds?	
Who does the ward rounds?	
Are nurses part of the ward round team?	Yes/No
Are parents / carers / patients fully informed of patient's conditions?	Yes/No
s there a patient / carer / parent suggestion/feedback box in the ward?	Yes/No
s there a room in room in Nursery for mum to room in with her sick baby?	Yes/No
Do you do bedside teachings?	Yes/No
